# ABOUT US

## THE NEIGHBOURHOOD ADVICE-ACTION COUNCIL

Since its inception in 1968, NAAC has always striven to promote its founding spirit "Help Our Neighbour, Serve Our Community". As A professional social service agency in HK, NAAC provides extensive services to meet the different needs of the needy, the vulnerable and the disabled. Not only serve them, but also empower them to help themselves and support each other in their neighbourhood or local community.

## Jockey Club Tai Po North Integrated Children & Youth Services Centre

Since 1992, our center has been providing diversified services to the youth and their families in the Tai Po District, dedicated to nurturing the moral, intellectual, physical, social, and aesthetic development of young people. In this 21st century knowledge-based and high-tech era, our center emphasizes helping youth broaden their horizons, look beyond their immediate surroundings, and stay in tune with the times. We also work closely with local schools, organizations, and parents, using professional methods such as group activities, community programs, and counseling to build a community that supports the healthy growth of young people.

Our center's service goals are: to promote the development of children and youth; assist them in developing life skills, potential, and problem-solving abilities; establish correct values, positive attitudes, supportive peer relationships, and clear learning and career directions; encourage awareness of community affairs and contributions to society; collaborate with parents to help children grow up healthy and happy; provide guidance and support to children, youth, and families in disadvantaged situations, guiding them toward a positive life; and call on society to pay attention to the needs of young people so that they can grow up in care and support.

## Centre Service

- Supportive programmes
- Community engagement programmes
- Drop-in facilities
